Re: Change of Zoning District (Rezoning) Application

Tax Map Parcel: 008 F 7, 008 F 8, 008 F 9, 008 F 10

Owner PRR 1, LLC

Applicant: Evergreene Homes

Project Address: 1211, 1245, 1311 Port Republic Road

Dear Mr. Fletcher,

On behalf of the property owner and applicant, please find the following submittal documents including: Rezoning Application, Special Use Permit Application, Statement of Proffers, Concept Plan, and checks for \$2,175.00 (\$1,150.00 rezoning and \$1,025.00 for SUP). This application requests a rezoning to R-8 (Small Lot Residential) with a special use permit per section 10-3-59.4(1) to allow attached townhomes of not more than eight (8) units.

The parcels that are included in this rezoning are currently zoned R-1 and are identified as Low Density Mixed Residential and Limited Commercial in the 2018 Comprehensive Plan. The Property is bounded by single family residential/commercial uses to the south, single family residential to the west (Stonespring Village), and single family residential/vacant land to the north. Low Density Mixed Residential ("LDMR") is described in the 2018 Comprehensive Plan as having around 7 dwelling units per acre, this project proposes a maximum 6.51 dwelling units per acre with a mix of single family, duplex, and townhome units. The project does not propose commercial uses, primarily due to the presence of flood plain within the area identified in the Comprehensive Plan as limited commercial (Port Republic Road Frontage). While the unit mix and types are slightly inconsistent with the textual description of the LDMR designation in the Comprehensive Plan, the density target and neighborhood characteristics are squarely in line with the textual guidelines provided in the LDMR designation. The loss of significant dense development area designated as "Limited Commercial" along Port Republic Road due to floodway/floodplain impacts, the commitment to the neighboring communities to back similarly size detachedsingle family homes along contiguous boundaries, and the need to provide more affordable housing types within the target LDMR density range dictated the use of townhomes in the proposed Concept Plan and Proffers. The applicant has prepared and attached two exhibits to this letter, titled "Comprehensive Plan Designations and Weston Park Density Transition to visually demonstrate the overall consistency of the Concept Plan as submitted with the LDMR Comprehensive Plan designation and stepped-up pattern of denser development occurring to the west of the site.

As planned, this project will provide up to 128 units of single-family homes, duplex units, and townhomes. Units have been arranged so that single family detached lots are located adjacent to the existing single-family developments to the south and west, acting as a transition to the duplex and townhome sections of the development. Per the 2018 Comprehensive Plan, projects within the Low Density Mixed Residential areas shall have innovative residential building types that promote neighborhood cohesiveness, walkability, connected street grids, community green spaces, and the protection of environmentally sensitive areas. The proposed plan connects two existing subdivisions to each other and Port Republic Road and provides two public street stubs to the property to the north. In addition, a network of private streets has been provided in order to provide a variety

of attached units and to provide a community green space that is connected to all areas of the project with sidewalks and trails. The project also protects the existing floodway/floodplain located along the project frontage.

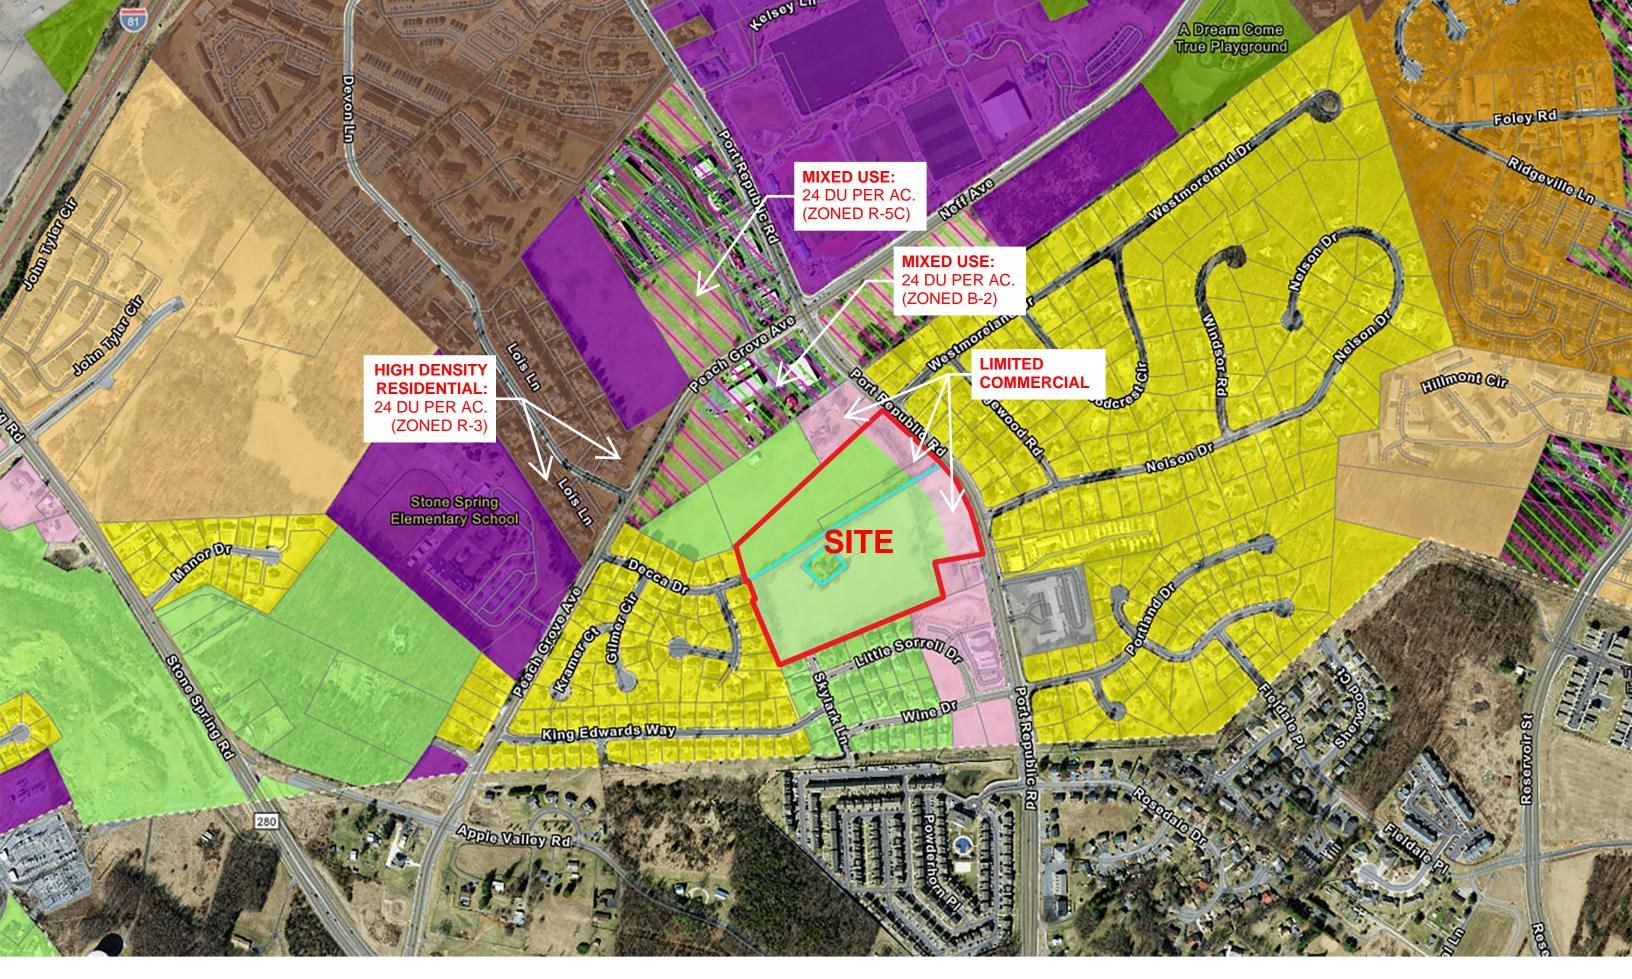

Thank you for your assistance and cooperation. If you have any questions, please do not hesitate to

contact me.

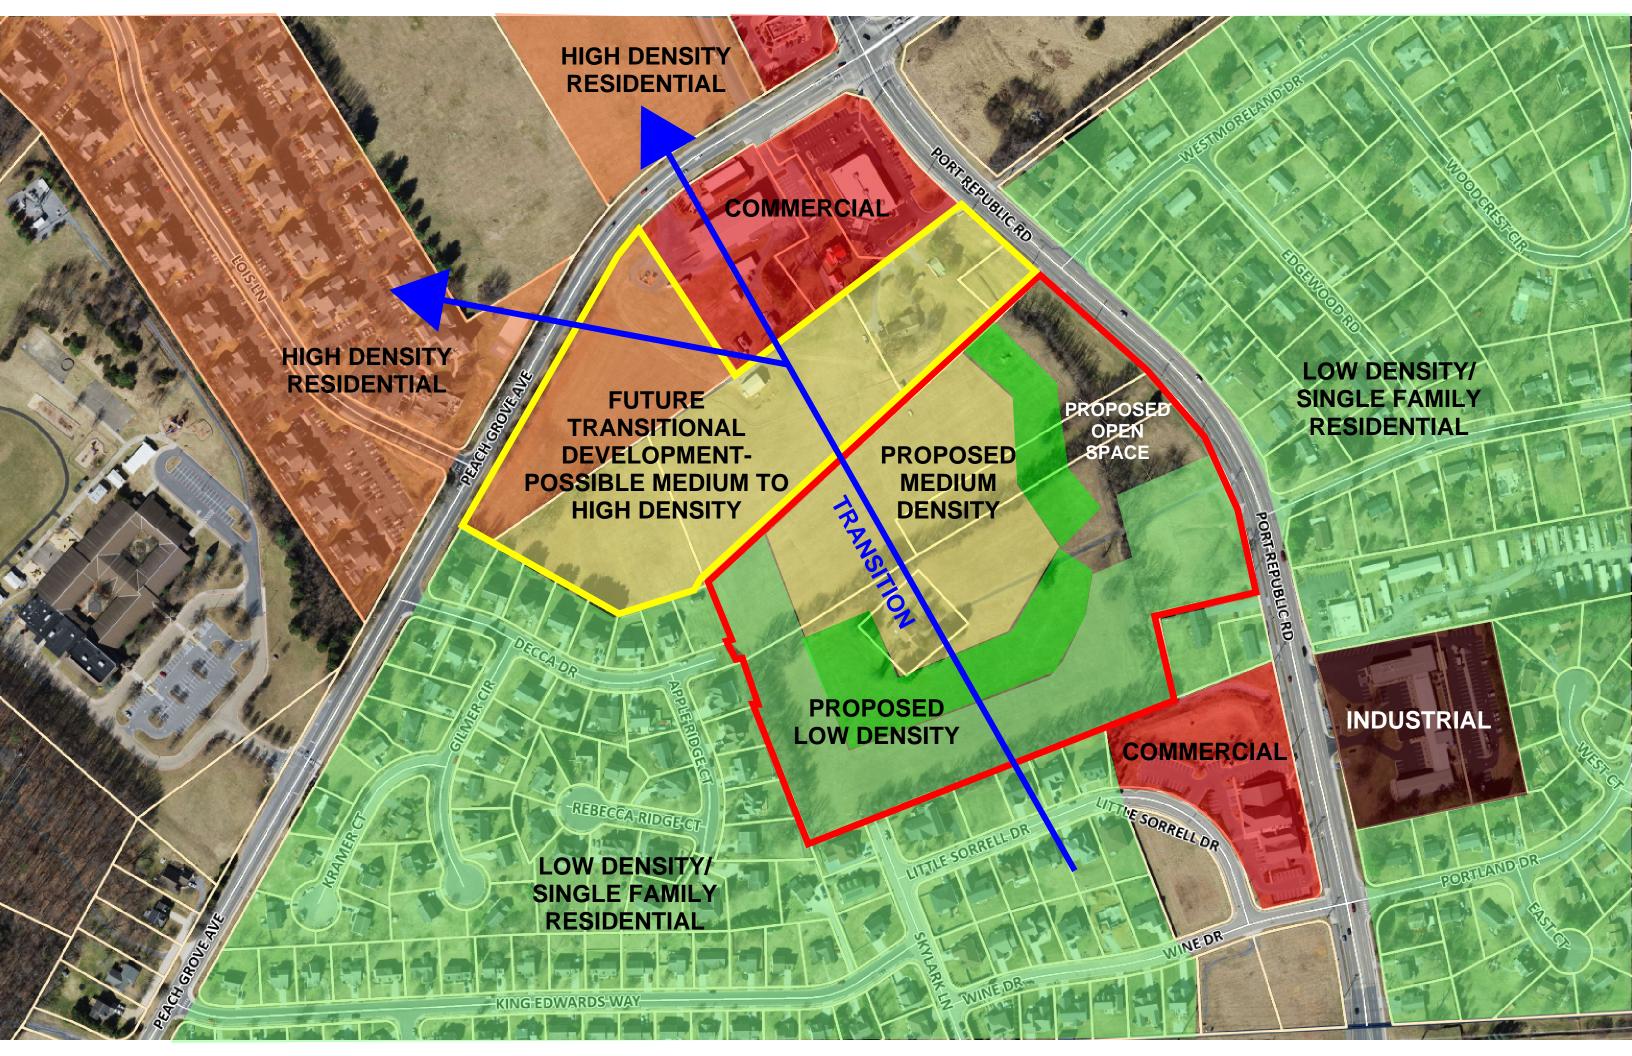

Sincerely,

Mark Giganti

WESTON PARK- ZONING AMENDMENT REQUEST (R-8)

PROFFER STATEMENT DATE: 11/3/23 (Rev. 2- 6-24) (Rev. 2-9-24)

RE: Weston Park Rezoning

Owner: PRR 1, LLC

Applicant: Evergreene Homes

Rezoning Case No:

Tax Map Numbers: 088 F 7, 088 F 8, 088 F 9, 088 F 10

Site Area: ±19.66 ac.

These Proffers shall be binding upon the Applicant, the Owners, and their legal successors or assigns (hereinafter referred to collectively as "Applicant"). The Applicant hereby agrees that the Proposed Rezoning itself gives rise to the need for these Proffers, that the Proffers have a reasonable relation to the Proposed Rezoning, and that the conditions are in conformity with the City's Comprehensive Plan. The Applicant has enclosed for reference a Concept Plan prepared by Valley Engineering ("Concept Plan") which is incorporated into this Proffer Statement by reference. The Applicant hereby proffer(s) that the use and development of this property shall be in strict accordance with the following conditions:

- 1. The development shall not exceed 128 dwelling units.
- 2. Units shall be a mixture of at least three (3) unit types (single-family detached, duplex, or townhomes). Only single-family detached units shall be located in Area 'A' as identified on the Concept Plan. Area 'B' shall be allowed to contain either single-family or duplex unit types and Area 'C' shall be allowed to contain any of the three proposed unit types. No more than 75 townhome dwellings shall be constructed on the property.
- 3. Applicant shall plant a 10' landscape buffer adjacent to the existing single-family development as depicted and described on the Concept Plan. The buffer shall be planted with a mixture of large maturing trees (1 tree per 60 LF, 1-1/2' caliper at planting) and medium maturing evergreen shrubs (1 shrub per 8 LF, 36" height at planting). Existing trees and shrubs that are saved during construction within the proposed landscape buffer shall be counted towards the proposed planting requirements. A landscape maintenance easement shall be established during final platting of the development, or during appropriate phases of final platting, and Applicant will establish the homeowners' association as responsible for maintaining the landscape buffer in perpetuity upon the end of the developer control period."
- 4. Applicant shall provide an easement for a bus shelter adjacent to Port Republic Road at a location acceptable to Harrisonburg Department of Public

- Transportation (HDPT) and will construct a concrete pad to HDPT's bus shelter specifications.
- 5. Applicant shall provide a public street network that extends Decca Drive and Skylark Lane, connecting to the proposed project entrance at Port Republic Road as generally depicted on the Concept Plan. The public street system shall include a total of two connections/road stubs to parcel # 008 F 7A and 008 F 6 as generally depicted on the Concept Plan. Applicant shall also dedicate right of way to allow the future extension of Westmoreland Drive through the northern corner of the property. The dedication shall include 31 feet of ROW on each side of the center line depicted on the Concept Plan. In addition, a temporary construction easement shall be provided as depicted/dimensioned on the Concept Plan.
- 6. A full connection to Skylark Lane will be installed and open to traffic prior to the issuance of the fortieth (40th) Certificate of Occupancy for any dwelling constructed on the property. A full connection to Decca Drive will be installed and open to traffic prior to the eightieth (80th) Certificate of Occupancy for any dwelling constructed on the property.
- 7. The project shall include a contiguous common area/park located adjacent to Port Republic Road. The common area shall be maintained in perpetuity by the homeowners' association after the end of the developer control period.
- 8. No less than one (1) large deciduous tree shall be planted and maintained by Applicant for every sixty (60) linear feet of public street frontage. At the time of planting, tree sizes shall be a minimum of 1-1/2" caliper. Trees shall be planted on private property within 10 feet of the public right of way where overhead utilities permit. Large maturing trees shall be planted in a manner so as not to conflict with existing overhead power lines along Port Republic Road. In areas where trees must be planted near the power line right of way, small maturing trees shall be utilized. Applicant shall transfer maintenance of any common area amenities, including trees and landscaping to a homeowners' association upon the end of the developer control period.
- 9. Applicant shall construct off-site road extensions to connect Decca Drive and Skylark Lane to the proposed public streets within the development. The connections include both the roadway, curb and gutter, and sidewalk, assuming existing right of way is in place for construction of the improvements. If the existing right of way is not sufficient to construct the improvements described above, and Applicant is unable to obtain additional right of way cooperatively after reasonable effort, the City shall obtain the necessary right way prior to requiring completion of the proffered improvements. Applicant shall notify the City as soon

- as it is determined that additional right of way is needed and shall allow a minimum of four (4) months for the right of way acquisition process to occur.
- 10. Sidewalks shall be provided on a minimum of one (1) side of all private streets and on both sides of all public streets where existing sidewalks do not currently exist.
- 11. During site development, construction access to the site shall be limited to Port Republic Road.
- 12. A one hundred foot (100') right turn taper will be provided serving the primary project entrance as shown on the Concept Plan.
- 13. Applicant shall either (a) construct speed tables near the connection points to both Decca Drive and Skylark Lane as generally depicted on the Concept Plan or (b) construct other intersection safety measures, such as raised intersections, traffic islands, painted stop bars, and/or other measures, at the intersection of Decca Drive and the extension of Skylark Lane and at the intersection of the extension of Skylark Lane and the new public street. The locations and designs of speed tables and/or intersection safety measures require approval by the Department of Public Works at engineered site plan approval stage.
- 14. Applicant shall construct a five (5) foot wide pedestrian connection that connects the existing shared use trail along Port Republic Road to the sidewalk system internal to the site. The location of the connection shall be as generally depicted on the Concept Plan. The pedestrian connection shall be compacted gravel or other hard surface material. If required, a bridge across the existing drainage shall be designed for pedestrian use only (no motorized vehicles, bicycles, etc.). The pedestrian connection shall be maintained by the homeowners' association and shall contain an access easement to allow use by the public.
- 15. Applicant will reserve necessary temporary construction easements so that future development to the north can connect into the public street stubs shown on the Concept Plan as determined by Applicant's engineer for future connection.
- 16. Applicant shall install and maintain a posted speed limit signage not to exceed 15 miles per hour to serve as a traffic calming measure in at least three locations on private streets to be determined at site plan review stage.
- 17. Applicant shall provide public access easements across as-built private sidewalks installed along private streets within the development.

RE: NEW CONSTRUCTION RESIDENTIAL COMMUNITY 1261 PORT REPUBLIC ROAD HARRISONBURG, VA 22801

Dear Neighbor,

My name is Jason Moss and I am with Evergreene Homes. We are a local developer and home builder. We want to inform you about a new project we are pursuing on an adjacent property that would connect to your neighborhood, as encouraged by City Planning documents for neighborhood interconnectivity.

We will be hosting an informal Information Session on Monday, November 27, 2023 from 6:30pm to 7:30pm at nearby Eagle Carpet (Community Room Upstairs/1352 Peach Grove Ave). We look forward to meeting our new neighbors, sharing our design concept and obtaining feedback from you.

Our application has been submitted to the City and we anticipate it being reviewed at the December Planning Commission Public Hearing. The application would then be scheduled to advance to City Council for Public Hearing in January.

Evergreene Homes has been active in the Harrisonburg area for over 10 years and has built over 300 homes. We are proud to be the primary builder at Preston Lake and have several more future projects planned in the Shenandoah Valley. We welcome you to visit Preston Lake to get a sense of the type of quality communities we construct.

We look forward to sharing our vision of the project, answering questions, and receiving your feedback. Thank you for your time and hope to see you on the 27th.

Best regards,

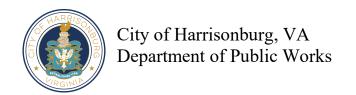

Jason Moss

Peak Hour Trip Generation by Land Use

Row	IVG'Nand Use		ITE Land Use Code	Unit	Quantity	AM Peak Hour of Adjacent Street Traffic	PM Peak Hour of Adjacent Street Traffic
1	Proposed #1						
2	Proposed #2						
3	Proposed #3						
4	Proposed #4						
5	Proposed #5						
6	Proposed #6						
7	Total New Trips						
8	Existing #1						
9	Existing #2						
10	Existing #3						
11	Existing #4						
12	Existing #5						
13	Existing #6						
14	Total Existing Trips						
15	Final Total (Total New – Total Existing)						

Instructions

Determination of trip generation rates shall be in conformance with ITE guidelines.

- 1. Based on the intended use(s), calculate the AM Peak and PM Peak trip generation using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 1-6). Attach additional sheets as necessary for more uses.
- 2. Sum up all of the trips generated for the new uses in the Total New Trips row (row 7).
- 3. If the development has any existing uses, calculate the AM Peak and PM Peak trip generations using the AM and PM Peak Hour of Adjacent Street Traffic rates from the most current version of the ITE Trip Generation Manual (rows 8-13). Attach additional sheets as necessary for more uses.
- 4. Sum up all of the trips generated for the existing uses in the Total Existing Trips row (row 14).
- 5. Subtract the total existing trips from the total new trips to get the final total number of trips generated by the development (row 15). Enter these numbers on the first page.
